Correspondence: 2002-06-17: Indigo Girls Official Taping Policy

Greetings --

Many people have asked if we have an official policy regarding the taping of Indigo Girls concerts. We do now and here it is --

Best regards,
Russell Carter

INDIGO GIRLS OFFICIAL TAPING POLICY

Audience taping is permitted at all Indigo Girls shows. We believe that taping shows is helpful in the encouragement of fan interaction and a way of having a permanent memory of a live show. If Indigo Girls are playing in an event which features multiple bands, the taping policy of the headlining band and/or the festival event will dictate the taping policy for that evening. All taping of live Indigo Girls shows is restricted to audio only; NO VIDEO taping will be allowed. Audio recording is limited to portable equipment which includes microphones and a recorder. Power or other auxiliary equipment are generally not supplied, so be prepared to bring your own battery powered equipment. Soundboard feeds will not be allowed. If you wish to tape, we encourage you to arrive early to set up.

All taping must be for personal and non-commercial use only. No profit is ever to be made from live shows. You are permitted to trade shows with other fans for an equal amount of media (ie. 2 CDs for 2 CDs). Indigo Girls, Inc. reserves the right to seek legal remedies against anyone that is in violation of this policy.

Trading of shows has been a large part of recreating the live experience and we want to continue offering this option to fans. Please keep clear of the crew during the show. Remember that the audience's enjoyment of a live show is paramount and will NEVER be sacrificed to accommodate tapers. Please refrain at all times from requesting fans to move or keep quiet. Please respect other fans while you are taping.

*Thank you -
Indigo Girls*
